At The Triangle in Swindon, we've designed homes that are beautiful, comfortable, and convenient – that people working in Swindon can afford. There are houses for rent at cheaper than market rates, and options to buy at a later date.

We've also done our best to make it easy to start eating a bit more healthily. We've put in community kitchen gardens and fruit trees. And it's all within cycling and walking distance of Swindon centre. There's a car club too – you could use the club cars and save yourself a packet.

And our houses are also designed to be super-insulated – naturally warm in winter and cool in summer, keeping bills nice and low all year round. Sound good to you? Then come along to our open evening at The Platform in Swindon town centre on Wednesday 2 March – or see www.haboakus.co.uk/triangle – to find out more.
